

INDUSTRY HIGHLIGHTS

PAINTPLUS HIGUARD

A premium exterior acrylic built for NZ conditions, offering smooth, even coverage with excellent durability. Self-priming on timber and suitable for most exterior surfaces.

ROBERLO MAXIFILL BODY FILLER

A universal light body filler with high filling power, fast drying and easy sanding starting from P120. Smooth, creamy application with excellent adhesion to galvanised steel and aluminium.

MAPEI FIBERPLAN

A premium interior-only self-levelling compound designed for timber substrates. Ideal for smoothing and correcting variations from 3–10 mm, with excellent load and traffic resistance.

TITEBOND III WOOD GLUE

Waterproof, super-strong bond with outstanding durability. Ideal for interior and exterior joinery, cabinetry, and general woodworking.

FESTOOL TS 60 KEBQ-PLUS-FS

Premium plunge-cut saw delivering up to 60 mm cutting depth, razor-sharp accuracy, and smooth, controlled feed. Built-in KickbackStop safety, powerful brushless motor and versatility with guide-rails make it ideal for precise woodworking and joinery work.

PROCOAT ROOF PAINT

Premium water-based, self-priming roof coating with a durable finish. Designed for professionals, giving superior adhesion and lasting protection on all common roof surfaces.

VERSATILE PRODUCTS
